

IMigrationMetadata

DbMigration

PokeWeb.Migrations.CreateDatabase

```
graph BT; A[PokeWeb.Migrations.CreateDatabase] --> B[IMigrationMetadata]; A --> C[DbMigration];
```

The diagram illustrates a class hierarchy or implementation relationship. At the bottom, a box labeled 'PokeWeb.Migrations.CreateDatabase' has two arrows pointing upwards to two boxes above it: 'IMigrationMetadata' on the left and 'DbMigration' on the right. This indicates that 'PokeWeb.Migrations.CreateDatabase' implements or inherits from both 'IMigrationMetadata' and 'DbMigration'.
